Press Release

28th June 2007

New Source of Botanical Absolutes, Concretes and Oleoresins for Fragrance.

Hawkins Watts Australia Pty Ltd ("HWA") today announced that they had been appointed exclusive Australian agents for the Egyflowers range of floral and botanical Absolutes, Concretes and Essential Oils.

"Historically Egypt has been a prime source of Concretes, Absolutes and other aromatics for the fragrance and flavour industries." said Steve Cooper, Sales manager for HWA. "Egyflowers, based at Tanta, on the Nile Delta, are recognised as manufacturers of some of the finest quality Concretes and Absolutes. The Egyflowers quality, combined with our efficient airfreight service allows us to respond to customer requirements effectively."

The Egyflowers range includes over 45 specialty products. All material is manufactured in accordance with strict quality guidelines using Gas chromatography, refractometry, polarometry and densitometry as well as organoleptic, chemical and physical analysis of every product.
